## CARNEGIE IS A MARK

Asked to Pay a Debt Contracted by His Mother 53 Years Ago.

Nephew of Scotch Woman Who Lent the Family Money to Emigrate With Asks Reimbursement at Compound Interest.

Andrew Carnegie's dollar-centing campaign in Great Britain has developed the alleged existence of a romantic debt the iron philanthropist's family left behind when it emigrated to the American land of plenty 53 years ago.

Henry D. Lennox, a resident of Glasgow, asserts that his aunt loaned Mr. Carnegie's mother 11 shillings (\$2.75) to help defray the family's ocean passage, receiving the promise of repayment when fortune should smile on the Carnegies.

Mr. Lennox calculates that at the rate of five per cent. compound interest the little obligation now amounts to \$44. He suggests that if Mr. Carnegie can spare the change he might be disposed to remember his old friends.

Mr. Lennox says: "When the Carnegies left Dunfermline they were so poor that the mother had to borrow money to take them to the United States. My aunt, though a poor woman herself, helped them out to the extent of 11 shillings, but the promise to return the loan evidently escaped the memory of the beneficiaries, because they never repaid the sum borrowed."

"My aunt is dead, but she left two daughters, one of whom is the wife of a humble laborer in Dunfermline, while the other is a maiden lady engaged in a small grocery business in Edinburgh. Don't you think that if Mr. Carnegie knew this he would be willing to do handsomely by his mother's friends?"

Meavy Wellington Wack, general manager of a company whose services as a collection agency Mr. Lennox has enlisted, informed the Chicago Record-Herald correspondent the other night that the matter has been seriously investigated by Mr. Carnegie during his present visit to his Highland estate of Skibo, and that he has decided to settle a very comfortable endowment on the heirs of the family of his benefactors.

## MOTHER FIGHTS EAGLE.

Mrs. Golding Chases Bird of Prey for Miles and Recovers Infant After Hard Battle.

Advices were received at San Bernardino, Cal., the other night of a fierce encounter between a woman and two eagles on a mountain between Victor and Rose Mine, about 50 miles north of San Bernardino.

Mrs. Golding is the wife of the stagekeeper of Box 8, a stage station. The other afternoon she was sitting outside of the house beside a cradle, in which lay her six-month-old infant. Suddenly a dark shadow swooped down and Mrs. Golding saw a large eagle rise up into the air holding in its talons her infant.

The mother rushed to where a male was tethered, and, pulling up the stake-pin, jumped on its back, and was soon following after the huge bird, which found itself difficult with its heavy burden.

The chase was continued for several miles, the eagle resting at intervals. When it alighted on its nest high up in the mountain, Mrs. Golding climbed above where she had seen the eagle alight, tied one end of the stake rope about a tree trunk and let herself over the cliff. She landed on a ledge and found the eagle. Seizing a club she fought the angry bird, succeeding in killing it.

Before she could escape to the ground the eagle's mate appeared, and the mother had another encounter, but drove the bird away. Mrs. Golding reached home late at night in a pitiable condition. The infant escaped injury.

The story was telephoned to San Bernardino by Superintendent Sprague of the Gold Mountain Mining company, who vouched for its accuracy.

## A Fiendish Attack.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters, which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50 cents at J. Taylor Day, Hazel Green, or S. S. Combs & Sons, Campton, drug stores.

## THE PLAZA—PAN-AMERICAN EXPOSITION.

The Plaza is an open space immediately north of the Electric Tower, and is 350 feet by 500 feet. On the east side is the large entrance building of the Stadium, and on the north the Propylaea, a section of which is shown in the illustration. On the west is the building for restaurant purposes, forming also the eastern entrance to the Midway. The Midway is three-fifths of a mile long, giving more than a mile of frontage and presenting the most interesting and wonderful collection of entertainment novelties ever brought together. There will be about thirty-five separate and distinct features, some of them very large, occupying several acres. The aggregate cost of the Midway attractions is estimated at \$3,000,000, which alone is more than the cost of some of the large expositions.

## TO USE WIRELESS TELEGRAPH

Attempt to Establish Station on Puget Sound to Report Incoming Vessels.

Experiments with wireless telegraphy for reporting incoming ships will soon be made between Tatoosh Island and Neah bay, at the entrance to Puget sound. At one time the government maintained a station for reporting and observation on the island, but the cable to Neah bay broke several years ago, and since then vessels have been reported from Neah bay. The government now proposes to reestablish the Tatoosh island station and to reopen telegraphic communication with the mainland. If the experiment with wireless telegraphy fails, a cable will be laid between the island and Neah bay. Owing to currents and rocks between the island and the mainland, the life of a cable off Cape Flattery is very short, so the government will do its best to make wireless telegraphy a success in order to save the cost of expensive cables. A reserve has been set aside at Tatoosh island, and plans and specifications have been made for a station to cost \$5,000. It is expected that bids will be called for at Washington within a month.

Baldwin Sails for the Pole. The ships of the Baldwin-Ziegler arctic expedition weighed anchor at Tromsø, Norway, the other night about midnight and, with the stars and stripes and Norwegian flags at their masts, steamed off to the north. As they left the harbor the crews of the other vessels in the harbor gave the expedition a parting cheer. Evelyn B. Baldwin, chief of the expedition, was in excellent spirits. His last words were that he had little doubt of reaching the north pole. The America will proceed first to Archangel, in Russia, and then return to the Island of Vardoe, off the coast of Norway, whence the final departure for Franz Josef Land will be made. Touching at Houningsvaag, the America and the Belgica will pick up the Erithjof, and all three vessels will proceed northward together.

Army Filling Up at Rapid Rate. Enlistments in the army are at an unprecedented rate, much to the gratification of artillery officers, who are anxious to have the maximum strength of their corps attained at an early date. The last week there were 403 enlistments, the previous week being less than 200. This enabled the war department to complete the third increment of artillery increase and make the promotions among the commissioned officers. The surplus enlistments with the additional transfers this week gives 417 men on the fourth increment of 1,302 men. All the infantry regiments are now recruited to their strength and all cavalry regiments except the Thirtieth are full. This enables the commanding officers to throw all the units to the front.

## Guarded to Prevent Lynching.

The remains of William Hart, a printer, who was foully murdered at Shelbyville Saturday night, September 21, were buried Wednesday afternoon in Grove Hill cemetery. Clarence Garnett and Jumbo Fields, colored boys, were arrested and charged with the crime. They have confessed. Anna Field, colored, was also arrested, and all three have been indicted for willful murder. Lynching is feared, and the jail is heavily guarded. On Monday night 40 masked men demanded keys to the jail, but did not succeed in their purpose.

## Tot Causes Night Alarm.

"One night my brother's baby was taken with croup," writes Mrs. J. C. Snyder, of Crittenden, Ky., "it seemed it would strangle before we could get a doctor, so we gave it Dr. King's New Discovery, which gave quick relief and permanent cure. We always keep it in the house to protect our children from croup and Whooping Cough. It cured me of chronic bronchitis, trouble that no other remedy would relieve." Infallible for coughs, colds, throat and lung troubles. 50c and \$1.00. Trial bottles free at J. Taylor Day, Hazel Green, and S. S. Combs & Sons, Campton, drug stores.

## Campaign Opens.

The republican campaign in Carter county opened last Wednesday with speeches by former Lieutenant Governor Worthington, County Judge Bennett and others. It is their intention to have meetings at every schoolhouse in the district and wind up with an old-fashioned barbecue Saturday, November 3, at which either Governor Bradley or Senator Debow will be the chief speaker.

## WATER SPECTACLE.

BEAUTIFUL FOUNTAIN EFFECTS FOR THE PAN-AMERICAN.

Unexampled Sights to Be Provided For Visitors to the Exposition. Will Use 35,000 Gallons of Water Per Minute For This Feature.

When visitors to the Pan-American Exposition view the fountain displays, they will be inclined to wonder where all the water comes from, so plentiful will be the supply. It will be with these fountain displays the same as it will be with the electrical exhibit. There will be a place, at which the display will increase in beauty and extent until the climax is attained in and about the Electric Tower and the basin thereof. So extensive will this be that all will recognize the beauty of the display and look in wondering admiration upon the spectacle, which is destined to be one of the most remarkable features of the Exposition.

The pumping plant that will supply the water effects will be located in the Court of the Machinery and Transportation building. It will consist of 12 pumps having a total capacity of 35,000 gallons of water per minute.

The engines are all to be belted to their respective pumps, and they will be required to be in service from 10 o'clock in the morning until 11:30 o'clock at night, a period of 13 1/2 hours. Estimating their capacity at 35,000 gallons of water each minute, it is evident that each day during the time they are to be in service they could pump the enormous amount of 27,825,000 gallons of water. This water will be used to serve the fountain displays at the Electric Tower and basin and also the Court of the Machinery and Transportation building. The water will be taken from an intake located at the north end of the Court of Fountains basin through a 48 inch suction pipe. It will be delivered by the pumps through 16 inch and 20 inch pipes at a pressure of 110 pounds per square inch to the fountain orifices. From these orifices the water will stream in all shapes from the finest spray jet to the solid stream inches thick that will rise high in the air.

At the Fountain of Abundance the sight will be all the more impressive. There will be an abundance of water, and it will be in motion. Beyond the Fountain of Abundance will be the Court of Fountains, and this basin will be filled with large jets of water thrown vertically. They will be known as pillar jets. In this basin will also be located beautiful groups of water figures, all formed in the manner in which the water is projected. The water figures will resemble sheaves of wheat, hills, etc., and they will average 12 feet high. On a line through the center of the main Court of Fountains there will be all of 20 of each of these figures of surpassing beauty.

Beyond this still, at the north end of the Court of Fountains, will be the Genius of Water. Here in a significant group of statuary the sculptor will portray his artistic conception of what the figure is designed to represent. Over in front of the statuary the water will effervesce, carrying out in most perfect way the sculptor's idea. In front of the Electric Tower, in the basin and in the niche of the Tower the climax of spectacular water effects will come with a gorgeousness that will exceed any display of the kind the world has seen. On each side of the center of the structure will be located two groups of water jets, with 20 large pillar jets, throwing water columns to a height of 50 feet. On the arc of a circle, whose center is the niche, will be located some 42 large jets, throwing water in parabola curve toward the cascades in front of the niche. These jets will be so arranged as to make a very rugged stream. This stream will not be solid, neither will it be so broken as in the spray jets. Then out from the niche itself there will come a flood of water of 15,000 gallons per minute, which, by means of a deflector, will take the form of an immense water screen or veil, the beauty of which will linger in the memory.

New Mark by Deutschland. The Hamburg-American Line steamer Deutschland has broken her record and made the passage between New York and Plymouth, Eng., in 5 days 11 hours and 5 minutes, at an average speed of 23.81 knots an hour over a distance of 3,082 knots. The vessel's highest day's run was 557 knots. This establishes a new eastward speed record. The highest previous eastward speed record was made by this steamer June 19, when she maintained an average speed of 23.38 knots per hour. The highest day's run of 557 knots is also an eastward record. The best previous day's record going east, 558 knots, was made by the Deutschland in August of last year.

Election Tuesday, Nov. 5, 1901.

THE court of claims was in session this week and apropos we wish to state that the proceedings of that body should be published in THE HERALD at as early a date as the clerk can compile a list of the claims allowed. We have published this list for \$10, which is only a nominal fee for the work, (other county papers charging from \$25 to \$100 for the service) and yet the clerks have been so derelict in duty that it has failed publication several times within the last decade. The law requires that the list shall be published in a county paper, if one be published, and it is the clerk's duty to furnish us the copy as soon as he can. Bro. Dickey publishes a paper at Campton, but as it is only a monthly devoted to religious matters mainly, and therefore not of "general circulation," so that neither in the spirit or letter of the law is it entitled to consideration in this case. We mention this because the last time the list of claims was published there was a disposition to divide it with Brother Dickey, if not, indeed to award it to him, and we think that conscientiously he will concede our rights. There are many reasons why this list should be published every time the court of claims meets, the chief one being that a majority of the citizens of the county may see how the revenue of the county is disbursed, and by publishing it in THE HERALD that is attained. The present clerk has had the list published according to law, but some of his predecessors were guilty of the grossest malfeasance in this matter. That it may not occur again and that THE HERALD may enjoy its just inheritance we indite this reminder of its rights, and we hope the county judge and county clerk will act accordingly.

COMPARISONS are odious—as Admiral Sampson may discover.

SINCE our last issue Czolgosz, the anarchist who shot and killed President McKinley at Buffalo, has been sentenced to death, and according to New York law, will be electrocuted during the week beginning on Monday, Oct. 28, 1901. The people are disappointed that he should meet death in a manner so mild, but it is the law of the land where the crime was committed, and there is no recourse. "Hanging is too good for him" and "he ought to be burned at the stake," &c., are expressions heard on every hand, but the edict has gone forth and the verdict is irrevocable.

THE Boers, in their fight for liberty, have scored another victory against the British soldiery in South Africa. The crack command of the British army, a company of trained scouts, were nearly all killed and captured. Lord Kitchen, in command of the English, has appealed for 300,000 more troops, notwithstanding he has now a force of 20 to one of the Boers. But the 20 do not appear to have either the pluck or the endurance of the Boer one, and certainly have not the instinctive incentive.

COMPLAINT was made to us a few days ago that a bridge within our corporate limits is in a dangerous condition. It seems that there is a hole in the bridge sufficient to admit a horse's leg, and the party who complained to us did so because he thought the town authorities, warned in season, might repair the structure and prevent serious consequences. The hint should be heeded or our town may repent it.

For months it has been accepted as a fact that the war in the Philippines was closed. Dispatches from the seat of war last week, however, bring the startling news that an entire company of American soldiers were nearly annihilated while at breakfast. They were surprised and 48 killed outright, while 11 more were wounded so badly that they are likely to die.

THE faults of military rule were well illustrated at the McKinley services at the capitol, where army officers took charge to the exclusion of the capitol and city police. They reserved over half the seats for themselves and their families, forcing senators and representatives to stand and even crowding out the families of the supreme court altogether.

THE publishers of the country do not intend to submit quietly to the autocratic action of the post office department in excluding premium giving publications from the second class mail privileges. A committee has been formed which will take the matter to congress when it meets.

TEDDY ROOSEVELT prefers to trust to himself rather than to the secret service to protect him from murderers' attacks, and, considering that the secret service has failed three times in forty years to protect our president from death, it cannot be said that he is altogether foolish.

ADMIRAL SCHLEY suffers severely in the sudden death of his chief counsel, Mr. Wilson, but, nevertheless, the truth will be brought out. Already, the navy department has been forced to admit the inaccuracy of the chart on which it based much of its attack on the Admiral.

FROM no part of the country have expressions of affection towards President McKinley been more numerous than from the south. Yet the south did not give him a single electoral vote, thus proving how well it can discriminate between the man and the President.

Isn't Mr. Maclay to be called to tell who gave him the "facts set forth in his history?"

KIPLING was right when he spoke of the peculiar spirit of the average American "that makes him the law he breaks; that makes him break the law he makes." Yet in cold blood, there is no people in the world with such a reverence for the forms of law, as the American.

PRESIDENT ROOSEVELT has declared in favor of tariff reform. As three-fourths of his party is bitterly opposed to touching the sacred Dingley bill, he will have an opportunity for the fight he always has had in every office he has held.

A SHORT time ago it was Roosevelt who was after the negro delegates to the 1904 convention and Mark Hanna who was grinning as he watched him; now the positions are reversed. Truly, to him that hath shall be given the support of the colored brother.

The Kind You Have Always Bought

Bears the Signature of *Charles H. Fletcher*

Col. L. M. Day, elder brother of F. N. Day of our town, and who formerly lived at Daysboro, died at his home at Beattyville on Wednesday evening, Sept. 25, aged 67 years. Judge Day came here from Virginia and at one time owned the land upon which the town of Daysboro is located. After selling off some of it he traded the remainder to Judge James Hampton, and removed to Beattyville, where he continued to practice law. He had been married twice and leaves a wife and several grown children, among them Lieut. Clarence Day, of the U. S. regular army, who reached his bedside just after he had breathed his last. Though of the same name he was not connected with the Nathan-Taylor Day family. His brother Fred was at his bedside when he died, and attended the burial.

## OIL BENEATH MY FARM.

BY SAM WILSON.

They say within this mountain chine,  
Down deep into the ground,  
Where sunlight ne'er can cast a ray  
That lots of oil abound.  
A rumor now floats o'er this chine  
That men of skill and toil,  
Will lease our lands both far and near,  
And start to drill for oil.

I'm waiting till they come this way:  
O! won't it be a charm,  
To give to these prospective men  
A lease upon my farm,  
And when the papers have been signed,  
Then all my hours of toil  
Shall vanish like a summer's dream,  
Whenever they strike the oil.

I've reached the mark of manhood's years  
And nearing life's brief span;  
And late and early I have worked  
As hard as any man:  
When reverses came my money flew,  
My castle—all did spoil,  
But better days will come again  
Whenever I strike the oil.  
Then let the fever come this way  
And be no false alarm,  
For really I do think myself  
There's oil beneath my farm.  
Should it prove true, then wife and I  
Shall know no more of toil,  
For we shall dwell on Easy street  
Whenever we strike the oil.

WANTED—Immediately, a girl to cook, wash and iron for small family; no cow to milk nor children to nurse. Apply at HERALD OFFICE.

## DOCTORS AND EDITORS.

### The Mighty Difference In Their Professions and Profits.

The doctors are all friends of ours, says the Iowa Medical Journal. We expect them to stay with us until death. Yet at the risk of incurring their displeasure we reproduce the following. We don't know where it came from any more than we know whose rain spout the doctor's medicine comes from. We find it in a paper credited to "Ex." If we knew the author we would gladly give his name because the article is really good. Here it is: "The doctor from Algona said that newspapers are run for revenue only. What in thunder do doctors run for, anyway? Do they run for glory? One good, healthy doctor's bill would run this office for six months.

"An editor works a half day for \$3, with an investment of \$3,000; a doctor looks wise and works ten minutes for \$200, with an investment of three cents for catnip and a pill box that cost \$1.37.

"A doctor goes to college for two or three years and gets a diploma and a string of words sathan himself cannot pronounce, cultivates a look of gravity that he palms off for wisdom, gets a box of pills, a cayuse and a meat saw and sticks his shingle out, a full fledged doctor. He will then doctor you until you die at a stipulated price per visit and puts them in as thick as your pocketbook will permit.

"An editor never gets his education finished. He learns as long as he lives and studies all his life. He eats bran mush and liver; he takes his pay in turpentine and hay and keeps the doctor in town by refusing from printing the truth about him.

"We would like to live in Algona and run a newspaper six months and see if the doctor would change his mind about running a newspaper for revenue only.

"If we didn't get some glory out of it, we would agree to take one of his pills—after first saying our prayers. If the editor makes a mistake he has to apologize for it, but if the doctor makes a mistake he buries it.

"If we make one, there is a lawsuit, tall swearing and a smell of sulphur, but if the doctor makes one there is a funeral, cut flowers and a smell of vernalis. The doctor can use a word a foot long, but if the editor uses it he has to spell it. Any medical college can make a doctor. You can't make an editor. He has to be born one.

"The editor works to keep from starving, while the doctor works to ward off the gout. The editor helps men to live better, and the doctor assists them to die easy. "The doctor pulls a sick man's leg. The editor is glad if he can collect his bill at all. Revenue only? We are living for fun and to spite the doctors."

**Hood's Sarsaparilla**

The best of all medicines for all humors.

**THE HERALD.**

**GREATEST FAMILY WEEKLY**

There was a Sunday school picnic held at Toller on Sunday.

Mrs. Ellen and Alice Pieratt attended the funeral of William Hill at Maytown on Tuesday.

R. J. McLin returned home Saturday night from a trip to Louisville. His family is still at Rose Hill, Va.

The wife of "Uncle" Billy Craft, living near Ezel, died on Sunday morning, aged about 40 years, of septic fever.

Taylor Day is now at St. Joseph's Hospital, Lexington, under the treatment of Dr. Clark, an expert on nervous diseases.

Married, at the residence of Dr. Kendrick in Maytown, on Sunday, Miss Lizzie Wilson and David L. Kins, Dr. Kendrick officiating.

**HUMORS**, boils, pimples and all eruptions are due to impure blood, and by purifying the blood with Hood's Sarsaparilla they are CURED.

The Hazel Green academy is on the increase, last Monday seven new scholars were added to the roll, four from Powell county, and three from Morgan—making enrollment 130.

One month from now, or on Tuesday, November 5th, a judge of the police court and five trustees are to be elected for the town of Hazel Green, and the best men should be put on guard.

Do you want a business education? If so, write Prof. B. B. Jones, Lexington, or come to this office and receive a scholarship. We can save you \$10.

The friends of Grant Lacy will regret to hear that he is in a very critical condition. Clay Lacy, his brother, who has been attending the school of telegraphy at Shelbyville, was summoned to his bedside and has been with him since Saturday.

Logan Murphy was here Monday to have some bills printed, announcing his sale on Thursday, Oct. 17, when he will expose a lot of live stock, household and kitchen furniture, grain, &c., for sale. Terms will be made known on that day.

Prof. J. W. Dinsmore and wife and two young men—Taylor Gabbard of Owsley, and Geo. G. Dick of Hamilton, Ohio, passed through our town yesterday, en route to West Liberty, where they will hold a five-days' meeting, beginning Friday night.

Billy Hill, whose illness has been reported in these columns, died at Ezel on Monday morning about 8 o'clock of fever, aged about 47 years. He was buried at Maytown on Tuesday under the auspices of the Masons, he being a member of Ezel lodge.

Doc and Joe Stamper, the Grassy creek merchants, have moved their families to Hazel Green to take advantage of the academy, and occupy the Methodist parsonage. The Messrs. Stamper, of course, will remain at Goodwin's chapel, but visit their families weekly.

Prof. Cord left Sunday for Cincinnati, where he will attend a convention of the Christian churches, which convened at that place on Tuesday. He is booked for a speech and it is hoped he will be able to enlighten the people of that section on the educational interests of this end of the state.

Only 30 days more for you to have a chance at the \$15,000 and the New York Monthly World. You are very foolish if you do not subscribe for THE HERALD and record your guess. Even should you not get a prize, the paper is worth the money and the Monthly World is free. But you stand a good chance of getting a good sum in cash. Try your luck.

Little is thought and less is known by the average man concerning the lives and aims of the 400,000 men and boys who delve under the surface of the earth in places of darkness and danger, where hardly a day goes by without recording the death by falls of rock, coal and slate of more than one unfortunate miner. An article on this subject at once impartial and vitally interesting is contributed to The Cosmopolitan of October by John Mitchell, president of the United Mine Workers of America, whom every one recalls as the man who organized the miners and carried through to a successful termination the great anthracite strike of 1900.

"He That Any Good Would Win" should be provided with good health and every one who would have good health should remember that pure, rich blood is the first requisite. Hood's Sarsaparilla, by giving good blood and good health, has helped many a man to success.

The suit of McNabb vs. the town of Hazel Green, which was decided in favor of McNabb in circuit court, was carried to the court of appeals by the town trustees and there judgment was reversed. The town instructed McNabb to build a sidewalk in front of his property. He did so, but the town refused to accept the job, and he failing to make it satisfactory, the town had the walk built and sued for the expense. The lower court decided for defendant because certain individuals had passed upon the job and pronounced it O. K. The higher court holds that the trustees alone are the ones to accept or reject. Hence the reversal.

Curtis Quicksall, who has been clerking for H. F. Pieratt off and on for several years, will next week leave for the mouth of Frozen, Breathitt county, where he has accepted a position with the firm N. B. Day & Co. During his sojourn in our town Mr. Quicksall has made many friends, who are loth to see him leave, and Mr. Pieratt will lose a faithful employee. Three years ago, when Henry Pieratt lay five months hovering on the border of Deathland, Curtis carried on his business, doing the buying, selling, collecting, etc., with as much care as though it were his own affair.

Mrs. Minnie James is still dangerously ill and there is but little hope of recovery. At times she rallies and gives hope. But it is only momentary. Her husband and family have our sympathy in their affliction. Would to God we had the power to comfort them more.

## Consumption

is, by no means, the dreadful disease it is thought to be—in the beginning.

It can always be stopped—in the beginning. The trouble is: you don't know you've got it; you don't believe it; you won't believe it—till you are forced to. Then it is dangerous.

Don't be afraid; but attend to it quick—you can do it yourself and at home.

Take Scott's Emulsion of Cod-Liver Oil, and live carefully every way. This is sound doctrine, whatever you may think or be told; and, if heeded, will save life.

The young folks had a jolly good time at the cin mill Monday night if there is anything in the noise they made, and that is all we have to judge by.

Brother Pike, who has been our pastor for the past two years, left last week for Willmore, where he expects to enter school soon after conference, which convenes this week at Shelbyville. Brother Pike is a good pastor and we regret having to give him up.

Uncle Rastus Brooks and boys Arbury and Robert are tearing down their old dwelling and erecting a neat little two story building in its stead. This a move in the right direction, and we will be glad to see this aged couple in more comfortable quarters for the coming winter.

Prof. Dinsmore and wife, Profs. Dick and Gabbard of Berea, Ky., are in town for a few days in the interest of the college of that place.

A part of the faculty of Berea college are holding a camp meeting at this place. They have with them a magic lantern which attracts many of our citizens.

The law suit of Chenault vs. Quisenberry was decided late Saturday night in favor of the defendant, Mr. Quisenberry. The law suit is the oldest on record, and the land in controversy is a tract lying near Torrent, Ky., a boundary containing 3,100 acres. This is the third time it has been decided by this court in favor of Mr. Quisenberry, and twice taken to the court of appeals, which court reversed the decision in both cases. The suit has been on record since 1868.

Amos Graham, who has so long shunned the clutches of the law, was arrested last Saturday by J. Morton Rose, R. A. Dunn and John Clair. First, though the peace officer, Alf Miller and some six or seven men surrounded him; but on seeing them he made his escape by dodging in a house, and then departing at a back door. The people were not satisfied for him to get away. So the three men mentioned above were selected to follow him, and they housed him the second time at John Bank's and forced him to surrender. He is now in the county jail where all law violators ought to be. We trust the commonwealth will continue the good work.

### MIZE MITES.

Died, Sept. 29th, infant child of Robert Price and wife, of croup.

Aunt Sarilda Greer of Chapel neighborhood is very low with fever.

Dr. Swango was called last week to see Stanley Havens, who has scarlet fever.

Curtis Oldfield, wife and little daughter Moody, were visiting on Pleasant Run last week.

It is not difficult to tell when a certain man is visiting in this vicinity. You will find bottles in the fence corners, and see men walking as if they had St. Vitus Dance, and sad to relate they are sometimes found lying by the roadside in a deadly stupor. Yet, we boast of Christian America! But what of the boast so long as the accursed whiskey traffic is carried on at our doors, almost in defiance of law and order. Where are our good (?) officers? Good citizens, who elected those officers? Why don't they arrest those men who openly deal out their murderous, fire-eating stuff? What does citizenship mean any way? Anarchism and whiskey traffic has caused Sainted Columbia many bitter tears.

## DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspaper is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer. In this paper and send your address to Dr. Kilmer & Co., Birmingham, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

### Newspaper Subscription.

Whatever else one can say in truth of Indiana, it must be conceded the possession of some sound thinkers in its judiciary. One rendered a decision, which constitutes a precedent quite valuable to newspaper publishers everywhere. In the circuit court of Kosciusko county, the Northern Indianan brought suit against one William Duval to obtain the money due it on a subscription covering fifteen years and three months. The court awarded the newspaper \$22.85, the total amount claimed, and allowed costs of some \$30 besides.

It was shown in the evidence that Duval ordered the paper in 1882, and continued to take it from the postoffice until December, 1897, when he ordered it discontinued and failed to make a settlement. During the period of delinquency a statement of his account was sent him semi-annually. He was also personally seen several times by a representative of the paper to whom he said he did not intend to pay, alleging as a reason that he had never ordered the paper. Upon the witness stand Duval showed a receipt for four months subscription declaring he ordered the paper for that length of time only. He did not deny, however, that he continued to take it from the postoffice. The court held that as long as Duval took the paper from the postoffice he received property of value and was therefore made liable for the payment for that property.

Every newspaper has subscribers who are willing to take and read the paper, but either refuse positively to pay for the paper or who are a long time liquidating their bills. This cited decision will perhaps tend to make such persons more prompt in the payment of newspaper debts.—Editorial in Newspaperdom.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give \$100 for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.

Sold by druggists, 75c. Hall's Family Pills are the best. m-c.

### Cigarettes Produce Insanity.

Minnie Dow, an outcast, was adjudged of unsound mind in the criminal division of a Louisville court on Wednesday week, and her condition is attributed to cigarettes. This is the first case on record in the local courts in which insanity has been attributed to the "sticks." For months this woman has been living with Negro families, and has been eating out of garbage barrels.

Mothers everywhere praise One Minute Cough Cure for the sufferings of their little ones it has saved. Strikes at the root of the trouble, and draws out the inflammation. The children's favorite Cough Cure. H. F. PIERATT.

### Stepped Into Live Coals.

"When a child I burned my foot frightfully," writes W. H. Eads, of Jonesville, Va., "which caused horrible leg sores for 30 years, but Bucklen's Arnica Salve wholly cured me after everything else failed." Infallible for burns, scalds, cuts, sores, bruises and piles. Only 25c per box. Sold by J. T. Day, Hazel Green, or S. S. Combs & Sons, Campton.

### Unnecessary.

He had called on a Fifth avenue physician, and reported that he was "knocked out generally." As he took the prescription, he said:

"Well, doctor, what do I owe you?"

"Two dollars."

"I'm sorry I can't pay you today. You won't mind waiting a while, will you?"

"No; that's all right."

"And, doctor, how much will this prescription cost?"

"About one dollar."

"Say, doc, you couldn't loan me a dollar to get it with, could you? I'm dead broke."

"Let me look at that prescription again," said the physician. He took it, examined it, and erased a line.

"I had prescribed something for your nerve," he said, "but I see you don't need it."—New York Times.

Kodol Dyspepsia Cure is not a mere stimulant to tired nature. It affords the stomach complete and absolute rest by digesting the food you eat. You don't have to diet but can enjoy all the good food you want. Kodol Dyspepsia Cure instantly relieves that distressed feeling after eating, giving you new life and vigor. H. F. PIERATT.

### Married Mother's Sweetheart.

John Earls, aged 63, of Pendleton county, and Melinda E. Lynn, aged 29, were married at Greentown, Ky., Wednesday. Forty years ago the groom of today and the mother of the bride were sweethearts and engaged to marry, but a misunderstanding separated them, and each married another. Now a widower Earls unites his destinies with the daughter of his first love.

"I had long suffered from indigestion," writes G. A. LeDeis, Cedar City, Mo. "Like others, I tried many preparations but never found anything that did me good until I took Kodol Dyspepsia Cure; one bottle cured me. A friend who had suffered similarly I put on the use of Kodol Dyspepsia Cure. He is gaining fast and will soon be able to work. Before he used Kodol Dyspepsia Cure, indigestion had made him a total wreck." H. F. PIERATT.

## State College of Kentucky.

The Agricultural and Mechanical (State) College of Kentucky offers the following courses of study, viz: Agricultural, Horticultural, Chemical, Biological, Mathematical, Normal School, Classical, Mechanical Engineering, Electrical Engineering, Civil Engineering, each of which extends over four years and leads to a degree. Post graduate courses of study are also provided, leading each to a master's degree. Each course of study is organized under a separate faculty. The general faculty numbers more than thirty professors and instructors. County Appointees receive tuition, room rent in dormitories, fuel and lights, and if they remain ten months, traveling expenses. The laboratories and museums are large, well equipped, comprehensive and modern. The last Legislature appropriated \$30,000 for a college home for young women, and a drill hall and gymnasium has been provided for men. Military tactics and science are fully provided for and required by Congress. Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the college to supply. Last year the matriculation list was 630. For catalogues, method of obtaining appointments, information regarding courses of study and terms of admission, apply to JAMES K. PATTERSON, Ph. D., LL. D., President, Or to Prof. D. C. ROAD THE TESTIMONY OF TWO WELL KNOWN CITIZENS OF WOLFE.

Mr. Cooper, Hazel Green, Ky.:

I purchased some of the Vita-Ore of you in the latter part of March, and after taking about a half-pint of the Vita-Ore Elixir my nerves were as steady as when I was 16 years of age, and I am now past 75. For more than a year I had been trying all the patent medicines and nostrums I could hear of to build myself up, but nothing did me any good until I used Vita-Ore, which my wife brought me from your house. After using it a week I went out and did three days' as hard work as I have done in 25 years, and I was not more fatigued than I was 25 years ago over the same work. It is the greatest medicine in the world, and I want everybody in the mountains to know what it did for me so they may try it. Hoping every one who has that tired feeling incident to old age will buy Vita-Ore of you and give it a fair trial, I remain, thankfully yours for putting me on to this remedy.

JAMES LACY.

I can vouch for every word Mr. Lacy says in the above. I am his wife and bought the medicine of Mr. Cooper for him, though I did not have much faith in it, because we had tried so many things that did no good. I have also used Vita-Ore, and am stronger and in better health than for years, which I attribute to its use.

(MRS.) SOUTHEY LACY, Lacy Creek, Ky., June 1, 1901.

Each Vita-Ore is \$1 a package, which makes 1 quart of Elixir. Dose—One teaspoonful in glass of water. Mailed to any address on receipt of price. Address
